

## South Korea ICT Index Leader Cyber Assessments

### Assessment Result

South Korea did not neglect the security aspect while developing its telecommunication infrastructure

- 1<sup>st</sup> in ICT Index
- 2<sup>nd</sup> in Education Systems
- 4<sup>th</sup> in manufacturing competitiveness
- 2<sup>nd</sup> in R&D Spending to GDP
- 3<sup>rd</sup> in Patents
- 7<sup>th</sup> in Cyber Power
- 8<sup>th</sup> in Military Power

Since the establishment of the country in 1948 a vision was in place to lead the world in several technological aspects

5-year strategies were developed and carried out meticulously achieving their objectives

Furthermore, With the Korean government continues effort and spending's in R&D it is no surprise that South Korea maintains the first ranking position on the ICT Index

#### Hacking, Viruses, Spam & Reports Per Year

Research Amount In Thousands Per Year	2003	2004	2005	2006	2007	2008	2009
Hacking	26,179	24,297	33,633	26,808	21,732	15,940	21,230
Viruses	85,023	107,994	16,093	7,789	5,996	8,469	10,395
Email Spam * 10	50,660	24,548	12,300	8,828	7,096	5,360	3,590
Incident Reporting	17,777	17,569	18,206	23,333	25,965	39,811	35,167

However, there are some inherited vulnerabilities in there e-government centralized design that needs to be vigorously secured from enemies across the boarder.
